29.3.2016

INOXAP/CGM-TSERC/2016-17

To

The Chief General Manager (Commercial & RAC) ,
TSSPDCL, Corporate Office, Ground Floor,
Mint Compound,
Hyderabad.

Sir,

Sub : Objections on proposed Tariff/Charges including cross subsidy surcharge
For the year 2016-17

Ref : Consumer no: MDK 769 in Pashamylaram with 33 KV dedicated feeder and
CMD of 6500 KVA .

We , INOX Air Products P Limited , is a joint venture company with Air Products and Chemicals , US are
the leaders in manufacture and supply of Industrial and Medical gases having national foot print.

The gases manufacturing process is continuous and require good quality power uninterruptedly . We
have almost 40 manufacturing units all across the country. **We have suffered huge losses in the
previous years** due to insufficient and poor power supply . We are happy that we are getting
uninterrupted supply of quality power now and are making efforts to recover and help our customers
recover with supply of gases at competitive rates . Thus we are making the industry in Telangana to be
effective in fighting global competition.

**The COST of gases manufacture is basically the Power Cost which is 90% of product cost.
There are no raw materials and the cost of manufacture is proportionate to the power cost.
Thus the gases manufacturing industry is highly power intensive . The increased power tariff will
directly increase the cost of production and the product cost in similar proportion.**
